

**Date 06.10.25**

Dear Parents and Carers,

**RE: Multiplication Tables Check**

We would like to inform you that during Year 4, all children across the country will take part in the national Multiplication Tables Check. This is a short online assessment designed to assess children's fluency and recall of times tables up to  $12 \times 12$ . The test will take place in June 2026.

At this stage and time, there is no cause for concern. The check is simply a way of identifying how well children are progressing with their times tables knowledge, and it will help us to continue supporting them in their learning. Our aim is to ensure that children feel confident and prepared through regular practice.

In school, we use TT Rockstars as a fun and engaging way to practise times tables. To support this:

- At home, children are encouraged to complete a 3-minute Garage session daily. This short, focused practice helps them to build speed and accuracy over time.
- In school, children will take part in a Gig session once a month, which allows us to monitor their progress and celebrate their achievements.

Thank you for your continued support in helping your child develop their mathematical fluency. If you have any questions about the Multiplication Tables Check or how to support your child at home, please do not hesitate to contact us.

Yours Sincerely,  
Miss Wilson  
Year 4 Class Teacher.
